## Description of Institution

Monash University (Monash) was established in 1958 in Melbourne, Australia. From humble beginnings, Monash has grown into a large, diverse, and highly-regarded tertiary education institution. Monash has a staff body of 14,869 that includes 6,769 academic staff. Monash academics are among the very best in the world and our professional staff are revolutionising the way we operate as an organisation.

The University is renowned for its diverse range of innovative courses (more than 170 high-quality undergraduate courses and over 330 postgraduate programs) delivered through 10 faculties: Art and Design; Arts; Business and Economics; Education; Engineering; Information Technology; Law; Medicine, Nursing and Health Sciences; Pharmaceutical Sciences; and, Science. In 2019, Monash enrolled over 77,000 students from over 140 countries. Monash also offers a range of professional and pathway programs including the Monash University Foundation Year, Monash College Diplomas and the Monash University English Language Centre which offer direct entry into Monash University degrees on successful completion. The success of our students continues to be limited only by the extent of their own imagination.

Monash is ranked in the top 1% of world universities (Times Higher Education World University Rankings, 2015-2016) and is a member of the "Group of Eight" elite research-intensive Australian universities. The Group of Eight produces more than 70% of all basic research conducted at Australia's public universities. Globally prized research capabilities and infrastructure result in an excellent international publication track-record.

**Global Footprint:** Monash research excellence and international education expertise spans five Australian campuses, international campuses in Malaysia and South Africa, and a learning centre in Italy. In 2007 Monash joined forces with the exclusive Indian Institute of Technology Bombay (IITB), to create a unique joint venture Research Academy in India. The academy now trains over 130 PhD students and delivers innovative solutions through collaborative, multi-disciplinary research projects. In 2012 Monash became the first Australian university to be granted permission to operate in China, establishing a Joint Graduate School with China's leading engineering institution, South East University (SEU), in Suzhou Industrial Park. Monash's strategic alliance with Warwick University in the United Kingdom, represents a unique whole-of-university collaboration across the core facets of the university (education, research, community engagement).

Monash takes pride in being globally networked and accessible. It was the 'university of choice' for over 26,000 international students, diversifying the campus community and bringing a cross-cultural perspective into the classrooms. Through an extensive international alumni network of influential leaders in research, government and industry, the Monash community continues to engage with the world to the great challenges of the age.

**Research and Innovation:** Monash researchers are making an impact across more than 150 fields of study. Leading capabilities are health and wellbeing, new industries and productivity, sustainable environments, and resilient cultures and communities. World-class research platforms and cutting-edge technologies have been established to enable and encourage collaborative and multi-disciplinary research.

**Monash's partners:** Monash collaborates with national and international partners across higher education, industry and government, to find innovative solutions to shared challenges. At the heart of Monash's engagement strategy is a commitment to excellence measured by the highest international standards. By understanding context and priorities, Monash strives for outcomes that are mutually beneficial and have a positive impact.

## Listing of courses

### Undergraduate and Postgraduate (coursework and research) programs in:

Accounting / Finance	Hospitality & Tourism / Hotel Management
Aerospace Engineering	Human Resource
Agricultural sciences	History
Applied Data Science	Industrial Design
Agribusiness	Interior Design
Anthropology	International Business
Art / Painting / Drawing / Print making / Sculpture / History	International Relations
Animation	Information Systems / Programming / Information Technology
Applied Finance (2 Years)	Interpreting & Translation
Auditing	Legal Studies / Law / Business Law
Automotive Engineering	Linguistics
Advertising	Logistics
Architecture	Management Studies
Business Administration	Marine Biology
Behavioural Sciences	Marketing
Biochemistry	Mathematics
Biomedical Engineering	Mechanical Engineering / Mechatronics
Biomedical Science	Medical & Radiation / Medicine
Biotechnology	Music/Composing/Conducting/Performance
Biological Sc / Mol Biology	Nanotechnology
Chemistry	Nursing
Civil Engineering	Occupational Health and Safety
Commerce	Paramedics
Computer Engineering / Computer Science / Software Engineering	Pharmacy / Pharmaceutical Science
Creative Arts	Physiotherapy
Criminology	Physics/ Bio Physics
Culture studies	Policy Studies / Public Administration
Digital Technology	Project Management
Economics	Psychology
Education	Philosophy
Editing and Publishing / Journalism	Politics / Global Affairs
Electrical Eng	Public Relations
Electronic Eng	Quality Management
Environmental Eng & Science / Environmental Studies Engineering	Quantity Surveying
Event Management	Risk Management
Electronic Systems&Network Eng	Science
Forensic Science	Sociology
Film & TV / Media Studies / Multimedia Technology / Theatre studies	Social Work
General English / TESOL	Statistics
General Engineering	Urban and Regional Planning
Geography	Visual Arts
Graphic Design	Water Resource Management
Health / Public Health / Nutrition and Dietetics	

## Overview of services offered

Monash Connect is your first point of contact for student services. The team of staff will assist you to access information and get the administrative support you need during your time at Monash University. You can access these services by either visiting one of the service points, phone or on-line Services offered include:

- Liaison with Overseas Student Health Cover (OSHC) providers
- Visa compliance and extensions
- General visa information if you have family accompanying you in Australia
- Airport pick-up
- Accommodation assistance
- Counselling service and confidential psychological counselling
- Health Services including a broad range of general health and medical services for students with an emphasis on illness prevention and health education. The services cover areas such as family planning, travel health, women's health, sexual health, sports medicine and psychological assistance in conjunction with other services such as counselling.

More information can be found on: [www.monash.edu.au/connect/](http://www.monash.edu.au/connect/)
